PRIMAL PICTURES

Specialty content powered by the **world's best digital anatomical model**
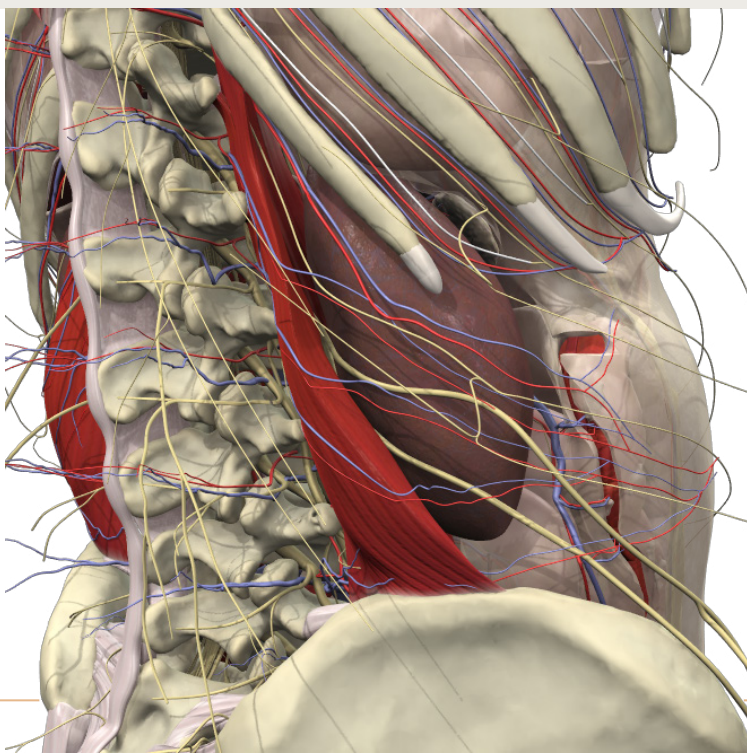

CLINICAL SPECIALTIES SUITE

Primal's Clinical Specialties Suite consists of 10 products each designed to give in-depth visuals and knowledge for a given specialty.

Each product can be a stand-alone companion for the professional or as part of our Solutions packages for trainees to progress in their study and career.
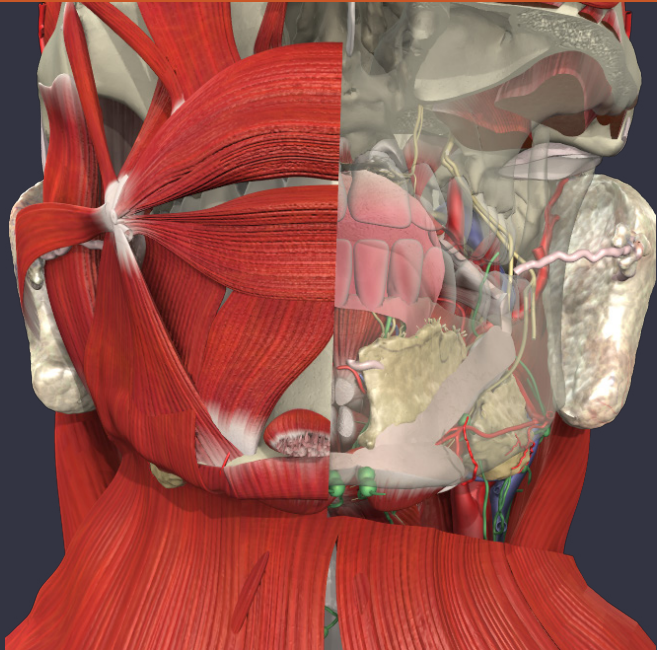

This suite includes: [1]

- 3D interactive models made from real human data. Models come with pre-defined layers of anatomy that can be added, removed and rotated.

- Animation library displaying functional, biomechanics and gross motor movements on an interactive 3D model.

- Movie bank featuring clinical and surface anatomy movies.

- A large collection of anatomical, clinical and dissection slides.

- In-depth anatomical and clinical text written by specialists.

- 3D cross-sectional models correlating with MRI and CT data.

- Interactive learning activities and quizzes to improve knowledge retention.

- Patient education printouts.

- Favorite, download, share and embed features allow the content to be used and accessed flexibly (including in an LMS).

"

The ability to import images, the ability to have some true human dissection, the radiological images, and the ability to look at things from multiple perspectives have been really important for our program.

Kathy Pappas
Associate Professor of Human Anatomy
Springfield College, USA
